Title: Environmental Engineer

Education: B.S. Civil and/or Environmental Engineering required

Experience: 3-5 Years of progressive experience in the field preferred

Qualifications: EIT & NASSCO certification preferred

Additional Skills: Experience with AutoCAD and GIS is required; MS office computer skills required

Location: Richmond, Virginia

Job Responsibilities and Requirements:

We are currently seeking a full-time Environmental Engineer to support our team in Richmond, VA. Assignments are varied but could include study, planning, and design of water and wastewater pipelines, pumping stations, and treatment facilities, as well as a variety of other related assignments.

The responsibilities will also include: use of AutoCAD and GIS mapping, field investigation, preparation of engineering reports, development of cost estimates, and construction support (onsite coordination, shop drawing review, interaction with clients/contractors, attend progress meetings, and prepare documentation). Excellent technical writing, verbal communication, and Microsoft Office computer skills are required.

Note: This is a summary of basic duties. Other duties related to this position may be assigned as appropriate.
